Press Release

TriStone Homes Opens New Unit in Laurel Mountain Ranch

San Antonio Texas, March 10, 2010: TriStone Homes, a local home builder, has announced the opening of a new unit in Laurel Mountain Ranch in far west San Antonio outside 1604 between Potranco and Marbach. "The new unit features large lots with huge oak trees and gently rolling terrain" says Dave Matlock, owner of TriStone Homes, "and they are located within walking distance of the community pool and park area."

TriStone Homes will be offering plans from its new Heritage Americana Collection, which range from 1,348 to 2,963 square feet and priced from the \$140's to \$170's with multiple elevation, structural and customization options to provide diversity in the streetscape. "Interest in Laurel Mountain Ranch has really increased" says Nancy Campbell, Vice President of Sales for TriStone Homes. "The new NISD elementary school within the community will be open next fall and families with school age children are anxious to build their dream home in time for their kids to attend next year."

"Laurel Mountain Ranch is an oasis on the West side," says Stanley Lewis, sales counselor for TriStone Homes. "First-time visitors are always pleasantly surprised by the beauty of the community, the amenities, affordability of the homes and now a brand new elementary school in an award-winning school district."

For more information on Laurel Mountain Ranch contact Stanley Lewis, sales counselor for TriStone homes, at (210) 677-0933 or visit www.tristonehomes.com.

About TriStone Homes

TriStone Homes is a local San Antonio home builder started in 2008. Currently in seven communities, they have closed over 120 homes and are one of San Antonio's fastest growing home builders per the 4Q 2009 Boelke Report. It is TriStone's core value and belief that:

- A quality home should be affordable
- The home buyer should remain at the center of the process
- Customer service should be proactive
- You treat others as you would expect to be treated

The dream of home ownership should not be out of reach. TriStone Homes maintains an open relationship with customers by encouraging them to know everyone on the team, from the sales person to the superintendent, office staff and warranty personnel. Open houses are held each month as an opportunity to interact with the entire team on a personal level. By working together with home buyers, TriStone Homes is dedicated to treating each customer as an individual and making their dream of home ownership a reality.

TriStone Homes demonstrates its commitment to quality through an intensive inspection process and system of checks and balances to ensure that all promises are delivered upon. This includes a pre-construction meeting to review construction documents with the home buyer and explain what they should expect throughout the process. Each sales agent makes weekly progress report calls to share construction status. Over a dozen quality inspections are performed during the construction process, including a third party inspector who serves as an "extra set of eyes" to ensure no details are missed.

It is TriStone's philosophy that no home will close before it is considered ready by the home owner. This includes a final walk with the buyer that is guided by the third party inspector, project superintendent and warranty service manager. Operation of appliances and basic maintenance are covered during the walk, and any items found will be corrected and approved by the buyer prior to closing.
